MY SERIES
Chopper and grinder pumps
for tough sewage

MQ SERIES
Wet & dry versions available
from 4 - 215 horsepower

MMR SERIES
Mixers for sludge
and chemical agitation

Reliability Starts Below the Surface.

AVANT wastewater pumps deliver proven performance in the toughest lift station environments.

Built for demanding wastewater applications, Tsurumi AVANT pumps provide the durability, solids-handling capability, and dependable operation operators need. When infrastructure can't stop, AVANT keeps wastewater moving.

YOU'VE EARNED A CHAMPION'S RING

Hydrocarbons and hazards? Challenge accepted.

The Guzzler Classic Liquid Ring has been meticulously engineered to safely deal with flammable and combustible dusts, as well as lower flashpoint materials. Safety and performance are a winning combination.

Significantly higher airflow
than others on the market

Quieter than typical
vacuum loaders

Simple maintenance
with easy access

The Call You Want Comes from the Station, Not the Resident.

Pump Watch Express® alerts you the moment something changes, wherever you are.

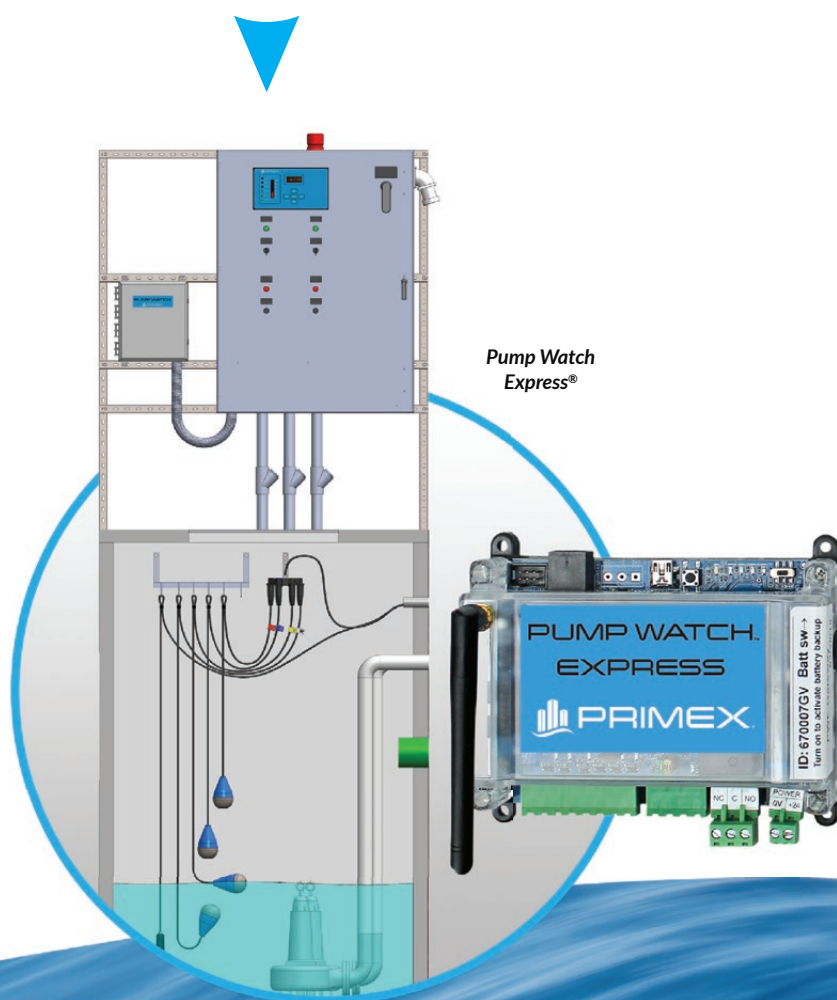

By the time a resident calls, you are already behind. **Pump Watch Express®** monitors every lift station around the clock and tells you the moment a float trips, a pump fails or power goes out. Open the map on your phone and see status across your whole system at a glance. Logged runtime, cycles and trend data are there when you need to document what happened and when. It runs on the 4G LTE cellular network, so there is no SCADA system to build and no IT team to wait on.

Visit **Booth 6713**
at **WEFTEC**

and discover a smarter way to
keep your equipment running.

WATER INFRASTRUCTURE DECISIONS MATTER

Communities depend on safe, reliable materials to protect drinking water

Water infrastructure plays a critical role in protecting public health. Materials used in drinking water systems must meet rigorous safety expectations.

The materials you select should be strong and reliable without introducing contaminants that could negatively impact your water supply and your community.

Because public health should always be a top priority

We Are Everywhere

Complete Wastewater Solutions Backed by Nearly 40 Years of Engineering Expertise

Fiberglass Basins

Strong. Precise. Built to last.

Engineered for wastewater and treatment systems with customizable sizing for a precise fit.

Engineered Systems

Designed for your application.

Packaged lift stations built to spec with expert support from design through installation.

Sump & Sewage Basins

Reliable in any environment.

Corrosion-resistant, easy to install, and built to perform long term.

**Find the right solution
for your next project.**

KEEP DOWNTIME OFF THE JOBSITE.

Introducing our Expert Services Network:
The expertise behind infrastructure uptime.

Meet Us At WEFTEC
Booth #8139

Advanced Solutions for Flow and Level Measurement

At **Pulsar Measurement**, we deliver award-winning flow and level monitoring instruments that are favored globally for their unmatched reliability and effortless ease of use.

Our solutions help industries operate smarter, safer, and more efficiently.

- **Application specific expertise**
- **Choice of technologies**
- **Non-invasive equipment**
- **Easy installation**
- **Global support network**

Visit us at **WEFTEC 2026**

Maximize Efficiency & Durability with TOM® & ecoFITTOM®

A uniform PVCO system, ensuring that both pipes and fittings share the same hydraulic and mechanical properties throughout the system.

TOM

The strongest PVCO pipe for the conveyance of high-pressure water or sewer

Nominal Diameters: 4" to 48".

Pressure Class: 165, 235 and 305 psi.

ecoFITTOM

The industry's first complete range of PVCO pipe fittings

Nominal Diameters: 4" to 16".

Pressure Class: 235 psi.

BARNES®

envie³

MAKING UPGRADES SMARTER

MINIMUM SUBMERGENCE. MAXIMUM SAVINGS.

Barnes' envie³ wastewater pump requires far less submergence than traditional submersibles—perfect for municipal sewer upgrades. Shallower lift stations mean less excavation, faster installs, and lower costs. Reduced water volume also helps reduce fats, oils, and grease for easier maintenance.

Ready to make upgrade? <https://hubs.li/Q03X6qCM0>

Fiberglass Lift Stations

Custom-Built. Engineered to Last.

ASTM
D3753
compliant

Capacities: 20–12,000gal

Diameters: 18"–120"

Depths: up to 30ft

Pump configurations: **Simplex, Duplex, Triplex, Quadplex**

Covers: **Fiberglass, Aluminum, Steel, H-20 load-rated**

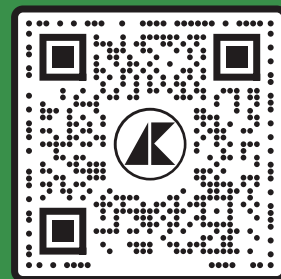

**Stronger than concrete.
Less weight. More Efficiency.**

Trusted by contractors, engineers,
and municipalities nationwide for
decades of proven performance.

MADE IN THE USA

Do More with Less

Introducing IVSM – The World's First Insert Venturi Static Mixer

WEFTEC BOOTH 4664

New, ground-breaking technology
based on the **PFS TEC-System™**
(Targeted Energy Consumption)

Modular system design to maximize energy savings while focusing on...

- Accelerating mixing to desired results
- Boosting pressure recovery
- Optimizing Mixing & Pressure Recovery

- ✓ 40+ years Experience
In pressure differential measurement
- ✓ Designed using CFD
(Computational Fluid Dynamics)
- ✓ Flow Lab Test **Verified**

**Flow Lab Testing Verified
Significant Energy Savings**

NEW!
TRAVELER XL

Inspection cameras you can count on.

The Spartan Tool Traveler Series delivers a full lineup of portable, field-repairable sewer inspection cameras designed to meet every jobsite need. From the budget-friendly Traveler Lite and Traveler Lite Classic to the advanced Traveler 4.0 and open reel Traveler XL, each system offers high-quality images, rugged construction, and reliable performance in the field. With interchangeable components, flexible push rods, and the user-friendly Spartan Tool Vision App for reporting, the Traveler Series gives professionals the versatility to tackle inspections with confidence.

FireFlow Pro

- The most accurate method available for flow testing activities – Utilizes UL certified testing equipment
- Displays real time pressure and flow calculations
- Detailed reports are automatically created
- Options available to suit small communities needing inventory options, to large cities needing GIS solutions

Highly robust and waterproof level measurement at a cost-effective price

OPTIWAVE 1520 and OPTIWAVE 1540 – Compact radar (FMCW) level transmitters with IP68

- Compact 80 GHz radar with flush-mounted PVDF Lens antenna
- OPTIWAVE 1520 – for water and wastewater basins, pumping stations, small granular silos etc.
- OPTIWAVE 1540 – for IBCs, chemical tanks, (waste)water applications, granular silos etc. and applications with high accuracy requirements (± 2 mm / ± 0.08 in)
- User-friendly commissioning via Bluetooth® using the OPTICHECK Level Mobile app
